## Know When to trade...What to trade...How to trade

### A 2-Day Technical Analysis Workshop for Active Swing Traders, Day Traders and Investors.

**Learn over 11+ Trading Strategies with clear ENTRY-EXIT-STOP Rules!**

This workshop is a highly intense educational program specifically designed to teach traders how to consistently make profitable trading decisions across multiple time frames. The seminar goes beyond basics and bookish knowledge to look at technical analysis in a truly practical manner.

**Getting traders to be independent and self-sufficient** has been a Viratech philosophy from the very beginning. We focus on powering you with tools and techniques that bring out a more knowledgeable and confident trader in you. Independence to a level where you don't need rely on anybody's rumors, tips, newsletters or sms.

This has all been achievable courtesy resources made available to you which would rate nothing short of world class, be it in terms of knowledge, tools or software.

#### **Get the benefit of 250+ man years of experience**

Viratech's seminar attendees learn refined trading tactics that have been developed and tested by experienced traders since two decades. You'll learn proven techniques from industry leaders and real life traders who are amongst the most renowned contributors in field of Technical Analysis software. Highlighted below are some of the key aspects that's we'll be covering...

**Up or Down :** Profit in up or down markets, learn with the aid of multiple case studies in Bear & Bull markets.

**Indicators and Oscillators:** Which ones to use, How and When?

**Setting Price targets using Fibonacci :** Make the most of MetaStock's inbuilt Fibonacci Projection tool

**Interpreting and Trading Volume + Volatility**

**Market Practical's including...**

- ◆ Nifty Trading strategy
- ◆ Trading with Gaps
- ◆ Dealing with News, Announcements, Results

**Zone Analysis : Caught on the wrong foot in a sideways zone?**

We'll show you how to classify if the market is inactive / sideways / trending. This is a very beneficial study as this could help you take trades in active zones and help stay out of rough sideways patches.

**Risk Management + Profit Management**

Decode the basics of risk reward ratios

Manage your risk and minimize losses by placing protective and trailing stops

Learn how to implement progressive trailing stop model to extract the maximum of a good trade.

**Powerful intra-day trading tactics using 5 and 15-minute charts**

**The RMO Trading System (MetaStock's inbuilt exclusive Trading Model) :** Discover the best way to trade MetaStock's renowned RMO trading system, that too presented LIVE by the creator: Rahul Mohindar

**Trend studies : The Do's and Don'ts**

**Breakout Module:** Detection of breakouts and breakdowns, and scanning for the same

**Counter Trend Indicators:** You'll learn 3 great ways to detect trend reversals : These strategies help us pick out bottoms in falling stocks, and likewise will point us to shorting opportunities in rising stocks that are topping out. The best part is that these strategies offer larger rewards for smaller risks.

**Trading with Moving Averages:** Go way beyond the conventional crossover concepts, and use averages in unique ways for refined signals.

**Putting it all together :** Learn quick ways and guidelines on how to do the complete chart checkup and learn how to implement it with real life practical exercises. What's best is you'd learn how to run a crisp Integrated BUY and SELL scan that puts all the components together to give you a clear trading signal

**Discover the NEW RMO: Automated Trend Modules plug in**

Get a lowdown of this feature rich MetaStock plug-in which has lapped up tremendous popularity worldwide. This event is a great opportunity for traders, to learn it live, straight from the maker and get all those valuable inputs and practical's put together.

**Lets talk results :** Over and above in depth structured learning, we'd also share with you real back tested results on Indian Stocks and Commodities. Getting a feel of these results will instill a totally new confidence in your analysis and trading approach.

**The composure of a winner : Mind vs Method :** We'll share with you practices to balance this dichotomy. We realize that in-depth understanding + a systematic composure are both key ingredients for becoming a good trader.

All this with a straight and simple traders approach, where we'll clearly highlight Entry, Exit and Stop levels for each strategy. After attending this seminar, you will be able to immediately apply what you've learnt. Whatever your skills or experience are, this workshop will enhance your knowledge, confidence and trading skill set.
